Q FOUR TT TRACK, matt black

Q FOUR TT TRACK

Light from an invisible source.
Q FOUR range of luminaires.

Minimalistic luminaire bodies made of black or white aluminium with especially developed lenses for focused light emission and lighting effect on the desired surface only. A precise spot with brilliant, glare-free light creates different zones while accentuating rooms and their contents. The Q Four range of luminaires provides architects and lighting designers with a complete toolbox for the use of directed light.

Q FOUR TT TRACK.
Not just an off-the-rack luminaire.

A conductor rail system combined with our premium Q Four luminaires provides quality lighting whatever the scenario. Maximum flexibility meets lighting aesthetics.
